Ajit Sah

Hi, I'm Ajit, a dedicated self-taught Frontend Developer currently looking for a role that challenges me and helps me grow my skills. I have a strong passion for learning, especially when it comes to new programming languages and technologies. I'm enthusiastic about contributing and developing in a supportive environment.

PROJECTS

E-Commerce 🛍
- Nov 2024

Built a full-stack e-commerce platform with a responsive React frontend and a secure Node.js backend. Utilized Redux Toolkit, Tailwind CSS, MongoDB, and JWT for seamless state management, styling, database operations, and authentication. Optimized development with Vite and Nodemon.

🌐 website ○ Github   `JWT` `Vite`

Restaurant App 🍴
- OCT 2023

Designed a user-friendly restaurant website, focusing on simplicity without dynamic updates
but enriched with aesthetic design and interactive animations.

🌐 website ○ Github   `Swiper.js` `Framer Motion` `Vite`

Travel App ✈
- JUN 2024

Our React-based travel platform offers secure, effortless bookings for destinations and appointments, with transparent pricing, real-time updates, and an intuitive interface for a seamless user experience.

Todo App ☁
- MAY 2024

"Keep Yourself Updated" features a modern, responsive UI built with Next.js and React hooks, allowing seamless task management. CSS-in-JS ensures maintainable styling, with optimized performance for smooth interactions.

🌐 website ○ Github   `Framer Motion` `Next.Js`

3D Visual Website
- NOV 2024

Built an interactive 3D website using Three.js with smooth animations and optimized performance. Focused on immersive visuals and cross-browser compatibility

🌐 website ○ Github   `Three.js` `GSAP`

EXPEREINCE

Next Js Developer
- Feb 2024

FakeStoreApi - Best Products Api

Features:
- 150 products with good looking thumbnails
- Support for Pagination
- Api response time upto 400ms

🌐 website ○ Github

Shopify Developer
Nov 2024

ION Fragrance Freelance Project

Features:
- Built a custom Shopify storefront with Liquid, HTML, and JavaScript.
- Developed dynamic customer reviews and a testimonial carousel.
- Designed custom themes for a premium, responsive user experience.

🌐 website ○ Github

Software Intern
- Mar 2024

Voice Of HealthCare- Internship Project

Features:
- Developed a responsive and interactive healthcare website using React.js and CSS modules
- Integrated REST APIs for real-time updates and dynamic content.
- Optimized website performance, reducing load time by 35%.
